Re: Top Fabricators – Sewer Connection Request – 2973 Bridge Street

Ms. Falcone,

On behalf of my client, Top Fabricators, at the above referenced address we are looking to request a sewer district expansion to encompass the existing building currently being used as a countertop manufacturer.

The building has been in operation and the owner is looking to add a employee bathroom for convenience for the facility. The sewer connection will be at the cost of the owner and is anticipated to be approximately 45 Gallons/day flow rate from employees. A separate application has been made to OCWA for water service.

Once discussed and we can move forward and a map, plan and report can be provided for the single parcel sewer extension.

If you have any additional questions or comments, please give me a call at 315.486.0501. Thank you.

Sincerely,

A handwritten signature in blue ink that reads "Michael B. Lasell".
